## Letter of recommendation

**Date: 26th April 2021**

### **To whom it may concern,**

I have known Tanishka Kohli for more than 3 years, first as a student and now as a working professional.

Over these years he has shown immense growth not just professionally but also personally. He has a diverse skill set starting from programming languages to operating system and extending to networking and cyber security.

He proactively participates in initiatives and takes it to go beyond the expected parameter and shows the successful model in much effective way. He also has experience in team work and makes his effort count taking the team forward.

I enthusiastically recommend Tanishka, for internships, summer training programs and other full time/ part time opportunities in your organization. His skills and talent would definitely count.

Please let me know if you have further questions. I am available to talk to you in much further details about Tanishka's qualifications

**Anand Sharma**
